No book is ever published without the support of colleagues and friends. But, *The Nonprofit Policy Sampler* is no ordinary book. From nonprofit leaders and for nonprofit leaders, it is a unique compilation of business documents from more than 50 organizations around the country. Without their hard work in developing these documents and generosity of spirit in sharing them, we could not have created this collection. To maintain confidentiality, we have removed all references to individual organizations in these samples, with the exception of the United Way of the National Capital Area (because it is important to understand the circumstances under which it was developed). On behalf of the sector, we would like to name and thank the following contributing organizations:
